RE: Moab Salt Review, Cane Creek Mine, M/019/005, Grand County, Utah

I received the latest Moab Salt response on June 7, 1989, in the form of revised pages to the existing MRP. The submittal appears to address all our concerns. I would like to proceed with tentative approval. I will need your concurrence before July 5, 1989.

The revised pages have not been inserted yet, and will be available along with a copy of the MRP. Look for them on the map table in my office.

I have sent a copy to Bureau of Water Pollution Control and have asked for any comments they might have by July 5, 1989.

The Canyon Collection System and Storm Runoff plan are still pending studies and negotiation between BWPC and Moab Salt. We need to discuss how we will handle these concerns.
